SUMMARY

A motivated second-year computer science student with a strong foundation in programming languages like Java and c programming, actively seeking opportunities to apply theoretical knowledge to real-world projects through internships and hackathons, demonstrating proficiency in data structures, algorithms, and problem-solving techniques while actively developing skills in data science and innovative solutions with a focus on data-driven insights.

EXPERIENCE

- "Developed a portfolio project using HTML, CSS, JavaScript, and a backend framework (e.g., Node.js, Email.js). Made an experience on Canva projects and Web Designing."
- "Designed and built a data analysis application using Python and to visualize trends from a large dataset in a Machine Learning course. Presented findings to the class."
- "Completed a self-paced online course on python programming, gaining practical experience with the fundamentals of programming through a user-friendly language, including concepts like variables, data types, loops, functions, conditional statements and allowing you to apply your knowledge in real-world scenarios across various fields like web development, data analysis, automation, and machine learning."
- "Contributed an open-source project on GitHub and experienced how to published the project on GitHub."

EDUCATION

Matriculation(2020-2021)

N.P Girls High School,Jnp (percentage-84%)

Intermediate(2021-2023)

Anchalika Higher secondary school (Percentage-82%)

Bachelor of Technology(2023-2027)

Pursuing B-tech 2nd year in Gandhi Institute of Excellent and Technocrats,Ghangapatna,Bhubaneswar.
